### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, line 4, "the high pressure main line" has been changed to --a high pressure main line --.

In claim 2, line 8, "the high-pressure air vessel" has been changed to --a high-pressure air vessel--.

In claim 5, line 9, "the high-pressure air vessel" has been changed to --a high-pressure air vessel--.

Applicant's arguments, see page 6, paragraph 3, filed August 8, 2005, with respect to claims 1, 2, and 4 to 11 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a method for making electricity and recovering the compression energy in an engine which comprises supplying compressed natural gas from a high pressure main line to a combustion chamber of an external combustion reciprocating piston engine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
